Since I have been doing the research I have wondered how different our lives might have been if our ancestors had not chosen the directions that they did. These directions have made us who we are, and landed us in so many different places.

I wonder at the courage of our ancestors - getting on those ships and sailing to far flung foreign lands, with little or no hope of returning to see their families again. How brave they must have been, or perhaps they were just desperate.

We cannot forget those who stayed at home and kept the home fires burning and gave our intrepid travellers a point of reference.

Whether they stayed in places old or travelled to places new, and whatever the reason for their remaining in, or departing from those homelands, we should continue to thank them for being our parents, grandparents and great grandparents and for helping to make us who we are today.

With this in mind, this book is

For my children and grandchildren
and broader family
so they know all where we came from.

Copyright

This book has been produced for the express use of family members and should not be reproduced, but can be used for research purposes. However, please respect the privacy of living family by keeping their information confidential.

Thank You

I would like to thank all the members of the family who have continued to supply me with information. There are too many to name, but you know who you are. Without that information, this book would not exist.

Special thanks go to my late aunts, Pax Towt (Blackwell) and Eve Johnson (Blackwell) and my mother Nancye Blackwell, without whose collaboration, enthusiasm, encouragement and advice, I may never have continued with this research.

My research is also interlinked with many other researchers whose families are linked to our own. Thank you to those people who have carried out research into these other family branches. Please see the bibliography and sources at the back of this book for this information. (As a paper saving measure I sometimes omit this information, but it can be supplied on request).

Introduction

Many strange and interesting facts are discovered in the process of family tree research. It can be costly and frustrating, but the results are so worthwhile, all the negatives disappear.

Sadly, there are some facts that will never be known, and a certain amount of supposition then comes into play, but a fact is not a fact without written evidence, so where ever possible, that evidence has been included in the sources section of this book. (As a paper saving measure I sometimes omit this information but it can be supplied on request).

I have carried out this research mostly at my own cost, and in my own time, but I believe that the more people this information is shared with, the longer it will last. I am happy to share this information with the family and I hope that you get some benefit out of my 30 plus years of research.

My motto is "always ask the questions". Sometimes you don't get the answers you want and would like, but if you don't ask, you will never know.

Research can be dry and boring to read and can only go so far, conversations round it all out. Over the years the conversation becomes less and the research becomes greater. It is important to try to have some family stories included amongst the research to make the family seem alive.

DNA has opened up a whole new realm of research and DNA has helped me solve, or put to rest, some family mysteries and dead ends. Without DNA, one entire line of my own tree was incomplete and incorrect. We now know more about our past than we could ever have hoped for. I am sure that DNA research will continue to solve some mysteries, and possibly even create some new mysteries.

I only ask one thing, and that is for all the family to continue to contact me with any information that is missing or incorrect, and that you all continue to contact me regarding any births, deaths and marriages. This is a BIG family, and I can't know it unless you tell me.

This book is a work in progress and will never end, as births deaths and marriages continue down the generations in perpetuity. There are bound to be mistakes in this book and I would appreciate being notified of any alterations or corrections that may be found.

Thank you once again for all your help and please enjoy this labour of love that has taken me more than 30 years to produce.

General Notes: Some family trees have John Wright marrying Catherine Meadows, however, in the Parish Registers, the father of this John is actually a William Wright, so I doubt this is the correct marriage. If this is not the correct John, the below newspaper and other stories do not belong to this John Wright and therefore the death will also be incorrect.

Maxim's Flying Machine
(1904)

Lancashire Evening Post January 12, 1937
SOUTHPORT STEAMER CAPTAIN DEAD

John Wright, Marshside Road, Southport, who was ex-chairman of the Southport Boating Company and member of the old Southport Lifeboat crew, died at his home, aged 75, today. He had also been pleasure steamer captain and manager of Sir Hiram Maxim's captive flying boats on Southport Pleasureland.

http://www.wright-brothers.org/History_Wing/History_of_the_Airplane/Doers_and_Dreamers/Doers_and_Dreamers_M.htm

Sir Hiram Maxim, in 1878, lost a priority patent battle with Thomas Edison over the invention of the electric light. He next invented the machine gun, found the US Department of War unreceptive, and moved to England in 1881 where the Royal Army was more convivial. In England he devoted much of his life to research in aviation but made little substantial contribution. In his first public address on aeronautics, Wilbur Wright credited Maxim for making the first powered flight, although it was uncontrolled and could not be sustained. Maxim was convinced that propulsion was the central problem in aviation and built a lightweight steam engine that developed 180-horsepower. He mounted two of these on a huge multi-wing airplane and tested it on a track. The track was designed to hold the biplane down, letting it rise only a few inches. But during one test in 1894, the track failed to restrain the biplane and it took off with three people aboard, careened through the air for several hundred feet, and then crashed and was demolished. Thankfully none aboard were seriously injured. This was, as Wilbur pointed out, perhaps the first time an airplane took off from level ground under its own power. However, owing the lack of effective controls and a skilled pilot to man them, it could hardly be considered a flight. Nonetheless, he had many other successful inventions, among them the mousetrap and the bronchial inhaler. In 1901 Queen Victoria knighted him for his contributions to science and technology.

In 1904, he designed an amusement ride to help fund his research. Based on one of his aeronautical test rigs, he called it the Captive Flying Machine. Today it is better known as the Circle Swing and it's a staple at every carnival and amusement park. Maxim built a huge (but unsuccessful) biplane in 1910 and in 1911 he partnered with the pilots Claude Grahame-White and Louis Bleriot to develop an airplane capable of lifting a 500-pound (227 kilogram) payload that could be used as a bomber. Ill health prevented him from completing this project and he died in 1916.

General Notes: Jane was admitted to the Whittingham Asylum on 13 March 1905. She was reported to have been unwell for only 1 week. She was described as a lunatic. She was having delusions and spoke in a rambling incoherent manner about her electric influence and responsibilities. She took a bible and said the influences proceeded from that. She said the electric influences over all the birds she had given over to her sister-in-law.

Thomas Wright, 26 Bury Road, Birkdale, near Southport, joiner, brother to the above, states, she kept her finger on the electric bell push and would not remove it, saying she exerted her electric influence on people in that manner. If Patricia had not given me her great uncles name, I would almost certainly have been so easily able to find out who Harold was. Harold left England in May 1910 to travel to Australia on the Ship the Suevic.

It is uncertain where Harold disembarked when he arrived in Australia, but it is thought he may have landed in Melbourne.

from the Victorian Public Record Office website: - Unassisted passenger lists (1852-1923) Record Series Number (VPRS): 947 Age: 20 date: 03 JUN 4 port: B ship: SUEVIC year: 1910 HALSTEAD, HAROLD MR.

On 21 August 1914, Harold enlisted in the army to serve in WW1. His service number was 191. He was 5 feet 8 inches tall and weighed 9lbs 7, I presume this actually means 9 stone 7ozs. His chest was 34 inches and his complexion was fair with brown hair and brown eyes and his religion was given as C of E. He was wounded in the shoulder whilst fighting at the Dardanelles at Gallipoli on 8th May 1915. He returned to Australia in mid 1916 and was discharged due to illness. In 1922 he collected his Victory medal at Manangatang, but he also collected another medal in 1922 from Victoria Barracks in Carlton.

Harold appears to have worked at the Lux Foundry in Brunswick for about 3 years prior to his enlistment, and was re-employed by the foundry after his discharge in 1916. The factory was shut down due to a strike and Harold was forced to find employment elsewhere. He worked at the Naval Store for a short time, and then worked as a labourer for the Brunswick Council for a short time before he moved to Kulwin late in 1920. Harold applied for an Indulgence Passage to return to England in 1916, but this was refused by the State War Council per a letter dated 10 November 1916.

Harold was granted a Soldier settlers block about 1920. The land was described as allotment 23, Winnambool, Kulwin. Kulwin is a locality in Victoria, Australia, located approximately 36 km to the east of Ouyen, Victoria. Kulwin Post Office opened on 16 August 1920 when the railway arrived and closed on 19 November 1974. His postal address was Manangatang. Harold forfeited the land at Kulwin in August 1925.

In April 1937, Harold was living at 9 Argyle Street, St. Kilda but a letter addressed to him dated 2 March 1937 gives his address as 66 Wilson Street, Burnie. He appears to have lived at various addresses in Tasmania, including Burnie and Latrobe from 1932-1936 approx. I have found Harold and Bridget in the 1936 and 1937 Electoral Rolls living at the Central Hotel in Burnie. Harold's occupation is given Manager. It seems Bridget and Harold separated between 1937 and 1943 as they are listed at different addresses in the 1943 Electoral Rolls. Bridget living in Traralgon, Victoria and Harold in Newcastle, New South Wales. I have now discovered that Harold and Bridget divorced in 1942.

Harold enlisted in Newcastle New South Wales, in the Army Citizen Military Forces during World War 2. His service number was N467395. He was discharged on the 20th March 1945.

The Bertram's referred to in the funeral notice appear to be Felix Hendry Bertam and Vera May Bertram of 100 Lawson Street, Hamilton in the 1943 electoral roll. Harold's address is given as 100 Lawson Street, Hamilton in the 1943 electoral roll and his occupation is given as sales manager.

Crisp and Edwards), who appeared for the complainant, said that he had arranged with Fisher to give up possession of the house within a fortnight. He asked that an order be made accordingly, and that the bench remit the costs, as defendant was not in regular employment. The order was made. Albert Cruse pleaded guilty to a charge of having failed to quit a house occupied by him and owned by John Hancox at Upper Burnie. Mr. Crisp appeared for the complainant, and made a similar application to that in the previous case. The defendant was ordered to give up the premises by July 31. Court costs were remitted. There was no appearance of Walter Bowden, who was charged in respect of premises occupied by him at Wivenhoe and owned by George Hull. The case was heard ex parte.

Harold Halstead told the court that he was the Burnie representative of J. F. Brady and Co., agents for Mr. Hull. Defendant had taken possession of the property in May last without the consent of the owner or his agents, and although he had been served with two quit notices had refused to leave the house. The sequel to a collision at the junction of Jones and William streets on November 23 took place in the Police Court yesterday morning, when Harold Halstead was charged with having on that day driven a car negligently in Jones-street, and Gordon Douglas Terry was charged with having failed to give way with his milk cart to a vehicle on his right at the junction, also with having driven a milk cart so constructed as to prevent the driver from having a sufficient view of the traffic on either side. Mr. T. H. Crisp appeared for Halstead and Mr. Leslie Hudson represented Terry. Mr. Hudson stated that civil action was pending in connection with the incident, and he therefore asked that the case be adjourned. The Police Magistrate stated that if that were so he would grant the application, as he did not wish to prejudice the civil case. He adjourned the cases until 9.30 a.m. on February 14.

POLICE COURT

In the Burnie Police Court yesterday Gordon Douglas Terry was charged with having on November 23 last being the driver of a milk cart, failed to yield the right of way to a car driven by Harold Halstead at the junction of William and Jones streets; also with having on the same date been the driver of a milk cart so constructed as to prevent the driver from having a sufficient view of the traffic following on either side of the vehicle. Harold Halstead was charged with having on the same date driven a motor car negligently in Jones-street. Sergeant E. J. Butler, who prosecuted, said that a collision had occurred between the two vehicles, and the charges had been held over to allow civil proceedings to take place. The civil action had now been settled, and he asked that both charges be withdrawn, to which request the bench acceded.

56. Lena HALSTEAD [10118] (*Maria WRIGHT*⁷, *Thomas*⁶, *John*⁵, *John*⁴, *John*³, *Niccolas*², *John*¹) was born on 15 Apr 1894 in Blackburn, Lancashire, England,⁸⁵ was christened on 27 May 1894 in Blackburn, Lancashire, England,⁸⁶ and died in Mar 1960 in Blackburn, Lancashire, England⁸⁷ at age 65.

General Notes: Lena was an attractive and vivacious outgoing character who took up dancing in the theatre. She was working in the Windmill Theatre in Blackpool when she had a relationship with the Manager, Sid Brandon. Sid was already married with children and much older than Lena. Lena became pregnant to Sid Brandon. Sidney Josolyne, an upcoming magician and illusionist married Lena a month prior to the birth of her child. Sidney Josolyne had already had a child named Lionel with a married woman. Lionel's mother's name was Ouida. Ouida had TB and was in a sanitorium.

(date unknown)

Ouida died within an year of Lena and Sid's marriage and Lena took charge of the 2.5 year old Lionel, son of Sidney Josolyne and Ouida, and her own baby Dora Desiree, who was about 6 months old at the time. Sidney was developing a new clairvoyant act and Lena, billed as La Celeste, would perform in the evenings. Lena's skills were applauded and they toured the country performing their popular act.

Sidney had grown up in a strict Victorian household where children were seen and not heard. He expected attention and demanded perfection at home and on stage.

When Sidney's son Lionel was 7, and Lena's child Dora was 6 years old, Lena fell pregnant again. Lionel was quite difficult and about this time he was taken out of school and sent by train to live with foster parents.

Beryl Francis was born during the Edinburgh Festival on March 11, 1926 at 3am. Lena was apparently still performing despite her advanced pregnancy. Beryl was a sensitive little girl who was frequently cared for by her older sister and by her father.

After Beryl was born she remembers playing close to the sands at Blackpool, and being sent to stay with her Auntie Dora, Lena's sister. Lena was not able to show the perfection in her performances that Sidney demanded and gradually began to seek solace in alcohol.

In 1931, Sidney had been working away and returned home to find Lena in bed with another man, Harry Birkby Dunster. Sidney made Lena pack her bags and sent her away with Dora. Beryl was only 5 years old at the time.

Sidney divorced Lena and married another young woman who became the new La Celeste.

Lena married Harry Dunster and they ran a boarding house. Lena stayed in contact with her daughter Dora, but did not see Beryl for many years.

Beryl became a nurse and she had a row with her father and left home and lived with her sister Dora. Harry Dunster had become ill and was a patient in hospital. Beryl went to relieve another nurse and Harry and Beryl had a conversation in which Harry apologised to Beryl for taking her mother away from her. Harry died soon after from cirrhosis of the liver.

Lena went on to marry Ernie Whisker who was a boarder in her boarding house. Dora Desiree convinced Beryl to attend the wedding, this broke the ice and Beryl and Lena were reconciled after many years. Beryl had finished her nursing training by this stage and went to stay with her mother and helped out at the boarding house.

When Beryl married Frank Bartlett, Lena and Ernie Whisker attended the wedding but Sidney Josoyne did not.¹¹³

Another name for Harold was Harold William Slater.

General Notes: ur: 78 McBride Ave Wonthaggi. Harold spent only 6 days at Seahaven Hostel Inv. before his death.

According to Harold's mother, he was born with a heart condition and was the first Glaxo (powdered baby food) baby in Australia. He was fed the formula whilst he was in hospital after his birth.

Harold Bonham
(Cir 1992)

Harold was born prior to the marriage of his mother to John Bonham. On 25 January 2018, with the help of DNA matches with his daughter Nancye and Grand daughter Coral, some good luck and a great deal of research, it has been established that Harold's biological father was in fact a man named Harold Halstead. Further information is being researched at present, but as Coral and Nancye have strong DNA matches with three people down the Wright, Coup and Halstead lines, and Harold Halstead has been placed in the right place at the right time, there would seem no doubt he was Harold Slater Bonham's biological father. FURTHER RESEARCH IS CURRENTLY BEING CARRIED OUT

I can remember his occupations as Fisherman at Lakes Entrance and Corinella, poultry farmer at Garfield, shop keeper at Iona, Pallet maker at Longwarry saw mill, Caretaker of the Cardinia Creek Boat Club near Koo-Wee-Rup. I can also remember him milking cows on his farmlet at Garfield and putting the milk cans out on the side of the road for the milk factory to collect. Other occupations included Truck Driver, quarryman, soldier.

Harold lived at Burnley until about 1919, Campbellfield, Broadmeadows East, Inglewood until 1930, Moe until 1936, Trafalgar until October 1936, in Wangaratta working at the filtration plant in 1937, Garfield until March 1940, Jindivick until June 1946, Corinella until June 1953, Poowong for 5 months in 1954, Fish Creek until April 1954, Iona until January 1956, Lakes Entrance from 1957 until January 1961, Catani February 1961, Scoresby from 1963 to October 1964, the Iona Post Office from 1964 until July 1968, the farm at 14 Mile Road, Garfield from 1969 until October 1972, The Cardinia Creek Boat Club near Koo-Wee-Rup from 1972 until February 1975, the farm at Garfield from 1975 until July 1987, 18 George Street Warragul from 1987 until Aug 1995, 8 Mary Street, North Wonthaggi from 21 August 1995 and finally 78 McBride Avenue Wonthaggi until the time of his death.

Harold was a very private man. He retired when he was 65 and always had a magnificent vegetable garden wherever he lived. At Garfield, then Warragul, and finally at Wonthaggi.

Despite his heart condition, he enlisted in WW2. He enlisted in the Militia Forces in 1932 and gave his address as Post Office Broadmeadows and his occupation as baker. His Army No was 183946. He enlisted in the regular army 28 April 1941 and his number was VX54407. His address at that time was given as Princes Highway, Garfield and his occupation as Quarryman. He was graded as a Group II baker and was sent to New Guinea, and the Middle East, but suffered from serious bouts of malaria and was eventually returned home and discharged. He would rarely talk about his service in WW2 in the 3/3 RAE, with only very scant details being passed on to his family. He never joined the RSL or participated in their activities. In the years before his death, he lived in a small house in Wonthaggi opposite the Cenotaph. On Anzac Day he would walk out to the fence and watch the proceedings, this is the nearest he ever got to participating in Anzac Day.

He was referred to as Pa by all his grandchildren.

Nancye married **Douglas Geoffrey Francis BLACKWELL** [186].

Children from this marriage were:

95 F i. **Coral Janine BLACKWELL [2]**

Coral married **Michael James JONES** [910].

96 M ii. **Douglas Harold Maxwell BLACKWELL [1326]** was born on 12 Mar 1960 in Warragul, Victoria, Australia, died on 5 Dec 1988 in Melbourne, VIC, Australia¹⁴¹ at age 28, and was buried on 8 Dec 1988 in Bunyip, Vic, Australia.¹⁴² The cause of his death was hepato renal failure, multiple trauma including fractured spine received in a motor cycle accident. He had no known marriage and no known children.

General Notes: Douglas worked at various occupations on leaving school, including for Smith and Nephew at Wonthaggi and Containers Ltd at Dandenong. He gained employment as a communications technician installing radio equipment and towers for PG Wallace until late 1988. He was living in Glenhuntly, Victoria. He then got a position for another communications firm installing car telephones and the like. He had only been working at the job for two weeks and was on his way to work on his on his motorbike about 2kms from his home when he hit a speed hump in the road and was thrown into a fence. The accident occurred in Lyons Street, Glenhuntly at the edge of R M Lord Park or Koornang Park. Douglas sustained serious injuries and was transported to the Alfred Hospital where he remained in a critical condition for one month where he died as a result of his injuries. Douglas did not marry or have any children.

DouglasHarold Maxwell
Blackwell and Michelle
Jones
(1983)

Douglas was the second child and only son of D. Geoff Blackwell and Nancye (Bonham). He lived at Garfield, Victoria, Australia, until he was 14 years old, when his family moved to Wonthaggi, Victoria, Australia. Douglas spent some time unemployed after he finished school, and later worked at Smith and Nephew in Wonthaggi and at Containers Limited, a packaging factory in Dandenong, driving from Wonthaggi to Dandenong daily. He moved to Glenhuntly in approximately 1985 where he had obtained a job working for P.G. Wallace and Co, a Prahran based company, who installed, serviced and maintained communications antennas. He worked all over Victoria installing these towers, but most of the work was carried out in the Melbourne area.

Douglas was an early adopter of computer technology and was adept at computer programming. He was also an amateur (ham) radio operator and enthusiast. He assisted in the early stages of organising and installing equipment for the formation of a local radio Station in the South Gippsland area, now known as 3MFM. He was undertaking a course in electronics at the Swinburne Institute of Technology.

The Rialto Towers (often The Rialto) is the second-tallest reinforced concrete building and the tallest office building in the southern hemisphere, when measured to its roof (several other skyscrapers in Australia are taller if their spires are included, as are some other structured in Australia such as communications masts and observation towers). The building is located at 525 Collins Street, in the western side of the central business district of Melbourne, Australia.

The Rialto Towers featured Melbourne's first skyscraper public observation deck which operated between 1994 and 31 December 2009 It was also the location of Melbourne's first Tower running event.

At the time of its completion it was the 23rd tallest building in the world and the 2nd tallest outside of the United States (behind First Canadian Place in Toronto, Canada). Construction of the Rialto Towers was completed in 1986.*(Wikipedia Feb 2012)

P G Wallace and Company installed the communications towers on the top of the Rialto building. Douglas, who was initially very unhappy working at height, soon got used to it, and would proudly recount the fact that he and his workmates used to fly paper aeroplanes from the roof of the Rialto building during its construction and the installation of the communications towers.

Descendants of John WRIGHT

Douglas left this job with P.G. Wallace and Co in mid 1988 and commenced working for a company called Australnet Communications that installed car telephones that operated from Mount Waverley. This was an infant industry at the time.

In his younger years Douglas played the cornet in the Wonthaggi Citizens Band, and played competition table tennis at Wonthaggi. He also enjoyed archery. As a child and into adulthood he built and flew model planes, eventually branching out into radio controlled equipment including planes, cars and boats. He competitively raced radio controlled sailing boats on the Albert Park Lake in Melbourne.

As children, Douglas and his sisters learned to ride motorbikes, which were ridden at Garfield on Theadora Fenn's land which was about 6 acres. Eventually Douglas obtained his motorbike licence and rode his bike to work in Melbourne trying to save fuel costs. He had purchased a 125cc racing motorbike which he was preparing to race in 1989.

Douglas was on his way to work at his new job at Australnet Communications, where he had been working for only 2 weeks, when his motorcycle hit a speed hump in the road, only about 2 kms from his home in Glenhuntly. He lost control of the machine and was critically injured and taken to the Alfred Hospital in Melbourne, where he remained in a critical condition for one month, but finally succumbed to his injuries on the 5th of December 1988.

Douglas did not marry or have any children but loved his nieces and nephews dearly.¹⁴³
